Current Responsibility

Annie Shen is an actuary with the Property and Casualty Practice in Milliman's Orange County office, focusing on advanced ratemaking techniques and InsurTech solutions. She joined the firm in 2019.

Professional Work Experience

Annie's areas of expertise include:

- Conducting personal and commercial lines ratemaking, product development, and filing support
- Performing catastrophe exposure analyses, including ratemaking for catastrophe exposed lines
- Developing rates and filing support for emerging markets, including transportation networks
- Performing competitive analyses in the context of ratemaking and product development
- Designing and automating insurance processes to improve efficiency and profitability
- Developing advanced business intelligence reports using data visualization

Prior to joining Milliman, Annie was an actuarial analyst at CSAA Insurance Group in Walnut Creek, CA, where she specialized in ratemaking for personal auto and homeowners insurance. She was responsible for auto and homeowners pricing for several states and was involved with developing and launching new products. She also led efforts to streamline and improve consistency of the auto product rating process.
